Biology Of The Invertebrates: Pechenik: 9789339221249

...

Pechenik's book on Invertebrates belongs to the former. I had the misfortune of being enrolled this semester in a Taxonomy class where the professor is a huge advocate of independent learning. This book offers detailed but not overwhelming information about the different phyla and puts emphasis on functional morphology which has helped me through out our practical examinations.

Biology of the Invertebrates - Jan A. Pechenik - Google Books

Jan Pechenik's Biology of the Invertebrates (BoI) is a significant, succinct contribution to invertebrate biology. I'll make the case for this textbook by first introducing and outlining two different approaches to teaching invertebrate biology, and then I'll outline BoI's positives.
