### **Seveneves**

Seveneves is a hard science fiction novel by Neal Stephenson published in 2015. The story tells of the desperate efforts to preserve Homo sapiens in the wake of apocalyptic events on Earth following the unexplained disintegration of the Moon, and the remaking of human society as a space-based civilization after a severe genetic bottleneck.

### **Seveneves - Wikipedia**

A catastrophic event renders the earth a ticking time bomb. In a feverish race against the inevitable, nations around the globe band together to devise an ambitious plan to ensure the survival of humanity far beyond our atmosphere, in outer space.

Ellenberg chases mathematical threads through a vast range of time and space, from the everyday to the cosmic, encountering, among other things, baseball, Reaganomics, daring lottery schemes, Voltaire, the replicability crisis in psychology, Italian Renaissance painting, artificial languages, the development of non-Euclidean geometry, the coming obesity apocalypse, Antonin Scalia's views on ...

### **Seveneves Quotes by Neal Stephenson - Goodreads**

*Seveneves* is a novel of the end of the world as we know it. You get more technical details about space physics, orbital mechanics, and heterozygosity than in your typical syfy novel. I would have enjoyed it more with a little more character development.
